

THE 2007 DONZI 43 ZR

Donzi's flagship 43 ZR was designed for those with an affinity for superlatives. Smoothest. Fastest. Best handling. Take your pick. With a Donzi 43 ZR, you'll never go unnoticed.

A true 43-footer, the 43 ZR offers more length and wave-spanning capability than other boats in its class, with a wider beam for increased stability, and extra heft to assure a silky smooth ride.

The 43 ZR's exterior styling has been designed to belie its substantial stature. A dynamic feature line begins at the bow and flows aft in a lithe, sweeping stroke. A low profile windscreen is nestled in a subtle fairing to provide function without detracting from the fluid profile of this muscular machine. The 43 ZR's curvaceous stern swells almost imperceptibly to conceal power of your choosing. Whether rigged with staggered twins or triples, the athletic 43 ZR was born to run – and looks the part.
