

## THE 2007 DONZI 29 ZF Cuddy

The 29 ZF Cuddy offers the same speed, handling, and smooth dry ride as Donzi's larger ZF models, in an easy to trailer, easy to manage 29-foot package. Far from a bare bones fishing boat, the 29 ZF's deep and roomy cockpit boasts a boatload of standard fishing features as well as luxurious Donzi touches throughout.

The 29 ZF's roomy cockpit features the same richly upholstered drop-down bolster seats and wraparound cockpit coaming bolsters as Donzi's larger ZF models. There's a head compartment with porta-pottie concealed inside the center console. A curved, tempered-glass console windshield offers protection as well as a distortion-free view, and the aluminum T-top includes an electronics box, forward and aft spreader lights & integrated overhead PFD storage.

The forward cuddy cabin features a fiberglass liner for easy cleanup. There's a full-length padded v-berth with storage beneath, while the large, locking companionway door and adjustable cabin lighting combine to give the cuddy an open, airy feeling.
